

Professor Brigitte König
MMD Laboratory, Magdeburg

Brigitte König is Professor of Medical Microbiology and Virology, Infectious Immunology and Infectious Epidemiology. She has degrees in Biology, Chemistry and Medicine, and a PhD in Medical Microbiology and Infectious Immunology.

She has served as Deputy Director of the Institute of Medical Microbiology and Epidemiology of Infectious Diseases at Leipzig University and as Head of the Department of Molecular Microbiology, Diagnostics and Biotechnology at the Otto von Guericke University in Magdeburg.

Professor König has been responsible for the quality management of the Institute of Medical Microbiology of the Otto von Guericke University and the Medical Faculty of Leipzig.

Professor König founded the Magdeburg Molecular Detections laboratory (MMD) in 2008, and is its Managing Director.

She has written five books and nine book chapters, as well as publishing 130 peer-reviewed articles as first author and 503 peer-reviewed scientific articles.

Professor König has a Certificate in Management Studies from the University of Hagen. She has professional memberships with the European Society of Clinical Microbiology and Infectious Diseases, the DGHM (German Society for Hygiene and Microbiology) and the DGFI (German Society for Infectious Diseases). She is the recipient of several prestigious awards, including a Postdoctoral Fellow Award from the American Society of Microbiology.

Magdeburg Molecular Detections (MMD) is located in Magdeburg, Germany. It works closely with the Medical Faculty of the University of Magdeburg and is dedicated to “putting together the puzzle” of a patient’s results to help detect the underlying causes of their health issues.
